

## Stage 01 (A Bay) – LATERAL MOVEMENT STANDARD

**Scenario** – This is a Standard requiring shooters to neutralize 4 targets, 2 times while moving laterally. Three targets are visible from the left side of the bay, 3 others from the right. Both shots on each target must be neutralizing.

**Procedure** – Shooter places one mag on the stool opposite the starting position. Shooter begins at P1a or P1b (shooters choice), 7 yds from the target line, facing T1 or T6, firearm loaded, hands at sides. At the signal shooter will draw and engage T1 or T6, then, while moving laterally, engage remaining targets as they are seen. When the far wall is reached, and all 6 targets have been engaged once, a reload is required, then all 6 targets are reengaged one more time while moving laterally back to the starting position. T2-T5 must be engaged while moving. T1 and T6 may engaged without movement. There is no -3 zone on any of the targets.

**Notes** – Mags loaded to division capacity. Procedurals will be assessed for extra shots on targets and for double-tapping any target. A shooter will be warned once to maintain movement, thereafter a penalty will be assessed.

<b>Targets</b>	6 static paper
<b>Conceal. Garment</b>	yes
<b>Start Position</b>	hands as sides
<b>Start Signal</b>	audible
<b>Shooting Order</b>	T1-T6 as seen
<b>Mag Change</b>	only at walls
<b>End Signal</b>	last shot
<b>Min. Rounds</b>	12 only
<b>Scored Hits</b>	2 neutralizing shots on each target
<b>Penalties</b>	standard
<b>Scoring</b>	Limited Vickers
