

Stage 07 (A Bay) – WHERE ARE THEY ALL HIDING?

Scenario – You are leaving your office after working late at your job at the warehouse. An alarm goes off followed by shouts from a host of people. You investigate and engage the armed intruders, but the shouting continues so you continue to search.

Procedure – All targets must be engaged from cover, with at least 2 rds. Shooter begins at P1 or P3 (shooter's choice), behind barricade, loaded firearm in holster, hands at sides. At the signal, draw and engage targets in tactical priority. After targets are engaged from the starting position, shooter must retreat to the next shooting position at the hallway at P2. All visible targets must be engaged, and reloaded mags seated, before the hall can be crossed to go to the last shooting position. Do not cross the gap with an empty firearm. Tactical sequence is not required for T5-T6.

Notes – T7 can be seen from more than one shooting position. Shooter may choose when to engage it so long as tactical priority is not violated. Shooters may not engage T1, T2 or T9 while advancing down the wall.
